VanPartner
by Mercedes-Benz

MERCEDES-BENZ CITAN VAN

1.6 to 2.1 m³ integral body shell on long or extra-long van

ATP approved vehicle conversion certified by CEMAFROID authorising transport of perishable foodstuffs.

ADVANTAGES

ATP "Reinforced" class of insulation compatible with a side door

"100%" usable cubic loading volume

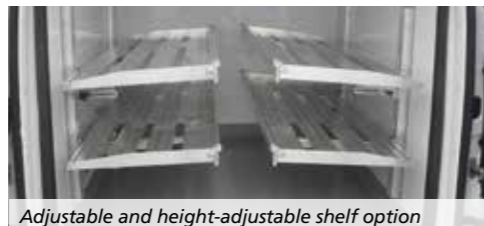

Aluminium floor as standard on versions with side door

Safety and soundproofing: manufacturer's partition retained

Refrigeration units built in under aerodynamic cover

DIMENSIONS

	Long wheelbase 2,697 without sliding side door	Long wheelbase 2,697 with sliding side door	Extra-long wheelbase 3,080 with sliding side door
Overall length	4,321 mm	4,321 mm	4,705 mm
Usable length	1,350 mm	1,320 mm	1,730 mm
Max. usable width	1,120 mm	1,120 mm	1,120 mm
Wheel arch width	1,120 mm	1,120 mm	1,120 mm
Max. usable height (exc. evap. /under evap. : Kerstner/Carrier – TK)	1,060 / 960 / 810 mm	1,065 / 965 / 815 mm	1,065 / 965 / 815 mm
Overall height (IR/KERSTNER/CARRIER/TK under cover)	1,810 / 1,910 / 1,940 mm	1,810 / 1,910 / 1,940 mm	1,810 / 1,920 / 1,950 mm
Width/Height, rear door opening	1,120 / 1,050 mm	1,120 / 1,050 mm	1,120 / 1,050 mm
Width/Height, side door opening	-	445 (min) / 557 (max) / 912 mm	445 (min) / 557 (max) / 912 mm
Estimated usable volume	1.6 m ³	1.6 m ³	2.1 m ³
Insulation weight, excluding unit and options	100 kg	105 kg	140 kg

Adjustable and height-adjustable shelf option

Removable open-work shelves option

Aluminium floor (versions with side door)

Extra-flat Kerstner® refrigeration unit

Built-in Carrier®/Thermoking® refrigeration unit

Side door

VEHICLE FOR CONVERSION

CITAN van with side door, long or extra-long.
CITAN van without side door, long.

With complete T partition (D50) and option EK8
Without gyratory movement

If refrigeration unit:

With earth connector and accelerated idling option (EK8)
Compatible with air conditioning with electric units (positive cold).

Without Stop&Start or can be deactivated

LAMBERET INSULATION

- › "ATP Reinforced" quality insulation, designed in accordance with HACCP "hygiene" directives,
- › Respect for the original roominess of the cab (manufacturer's roof and partition unchanged),
- › Moulded panels with polyurethane insulation, offering perfect hygiene conditions and very easy maintenance,
- › Double rim seal on doors for maximum watertightness (DIN 1815),
- › LED ceiling light; internal emergency unlocking,
- › Version WITHOUT side door: smooth grey polyester floor in the form of a tray, with water recovery spout and an outflow at the front,
- › Version WITH side door: chequered aluminium floor in the form of a tray, with water recovery spout and an outflow at the front.

REFRIGERATION UNIT

Carrier®, Thermoking®, EDT®

- › Power suitable for use, positive or negative cold
- › Semi-flush mounting under aerodynamic cover
- › Position above loading area for better soundproofing

Kerstner®

- › Power suitable for positive cold (electric technology)
- › Semi-flush mounting under soundproofed aerodynamic cover
- › Integrated evaporator (usable height retained).

TRADE FITTING-OUT

- › Intermediate openwork shelf,
- › Aluminium adjustable & height-adjustable shelf profile 400 mm,
- › Fixed partition (ATP multi) or flexible (ATP single),
- › Lashing rails in mixed stainless steel or aero aluminium,
- › Runners; "Seafood" sill; Anti-heat loss curtains,

Refrigeration unit options:

Mains mode, heating, aerodynamic cover paint, "Pharma" certification, recorder, etc.

Unique expertise from 1 to 100 m³,

A sales & services network throughout Europe,

UTAC qualified operator, CEMAFROID manufacturer accreditation,

Product certification in accordance with ATP and DIN standards,

Factories ISO 9001 version 2015,

Product specifications incorporating the HACCP hygiene policy and NF food standard,

CARRIER®, KERSTNER®, EDT®, DELPHI® approved assembly and commissioning centre, THERMOKING® partner
